

TECHNICAL EQUIPMENT

WELDING MIG-PULSE MPI – 220

WELDING TIG AC/DC 200 + COOLING

WELDING TIG 200 + COOLING

WELDING TIG 220 AC/DC + COOLING

WELDING TIG 1700 (2 UNITS)

WELDING TIC 230 (2 UNITS)

WELDING MIG 271 A

POLISHER Ø 1000

POLISHER 5 c.v. (2 units)

CUTTING PLASMA

ABRASIVE BLASTING

COMPRESSOR 2.2 KW

MANUAL MACHINES (Angle Grinder, Drill machines, Beveling, etc)

LIFTING CRANE EQUIPMENT

TURNER 15.000 KG

We manufacture all kind of elements, equipment and machines in stainless steel, carbon steel and aluminum for the industrial sector.

From the very beginning, we have work for water treatment plants, pressure cauldrons, tanks, pipes, etc

Laser cut: 20-25mm thickness, until 6 m length

Folding: 10mm until 2 metres, 5mm thickness until 6 meters length

Tube forming: until 8mm thickness, width until 2m
